

# 1. How to login with username password

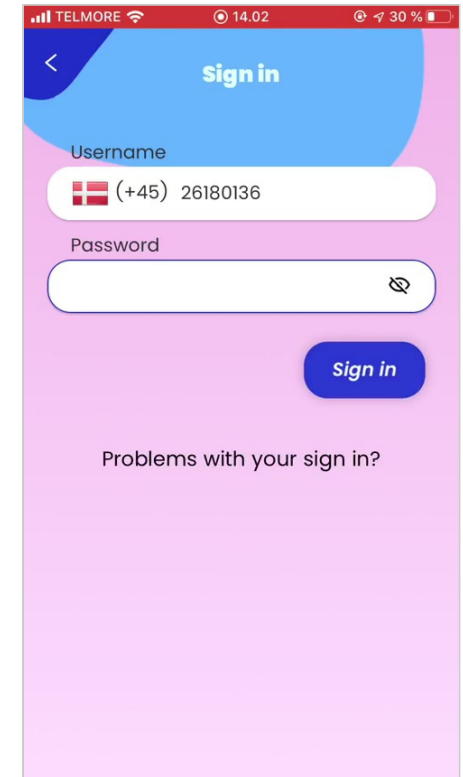

To sign in you need to use the username and password that you created upon profile creation

Input username. Username can be either a phonenumber, email or a chosen unique username

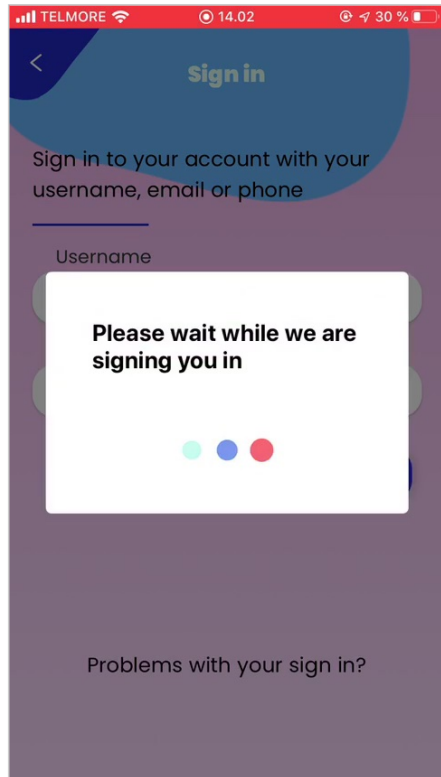

In this example, the username is Phone number. When you start typing the phone number, the system recognises the country code automatically. In this example it's Denmark (+45) is

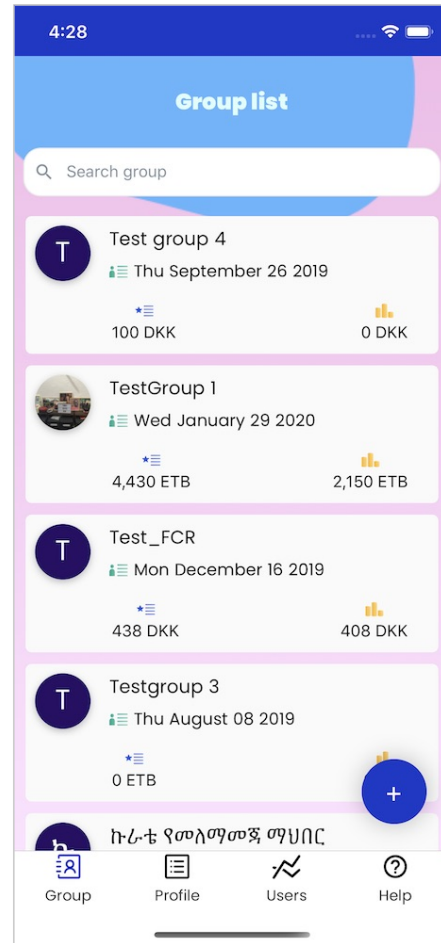

Enter your password. The small symbol indicating an eye to the right side of the input field, can be pressed, allows you to see the characters you are writing, to be certain that you don't misspell.

# 1. How to login with username password

The system is verifying your credentials and logging you into Jamiipay

You are now inside Jamiipay and can start working with your groups
